Students can access VET Courses in the following ways.

- Courses are offered through VETnetwork. They coordinate courses for a regional cluster of schools of which we are a member. An extensive range of courses is offered. Courses are nationally accredited, offer SACE points and may help TAFE entry. Details are available from the VET Coordinator, Craig Johncock. The courses are offered both during school and after hours and a fee applies.
- VET Units are currently embedded in Year 11 and 12 Physical Education.

Physical Education includes units from the Outdoor Recreation training package.
Year 11 — Provide emergency care; Manage injuries in an emergency situation.
Year 12 — Demonstrate simple kayaking basic skills.

For further information please see the [VET Program](#).
